

UNI-GROUP U.S.A.

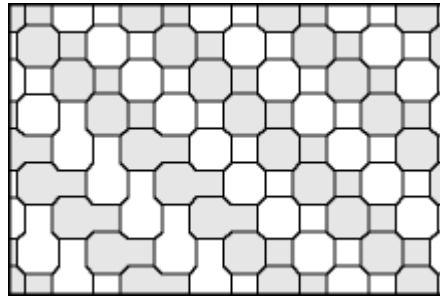

Pattern Design Details

UNI-DECOR®

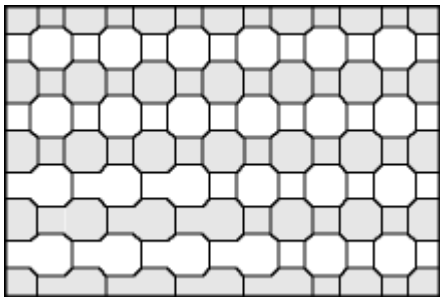

UNI-Decor® can be installed in a number of patterns; however, the overall appearance remains the same unless the pattern is highlighted by the use of different colors. The shaded areas in the illustrations below show the actual pattern.

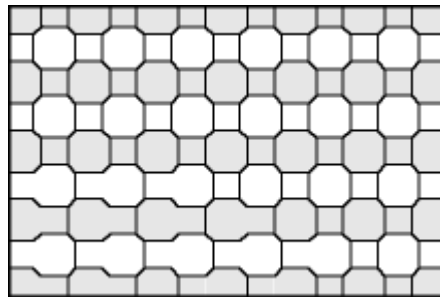

Herringbone 45°

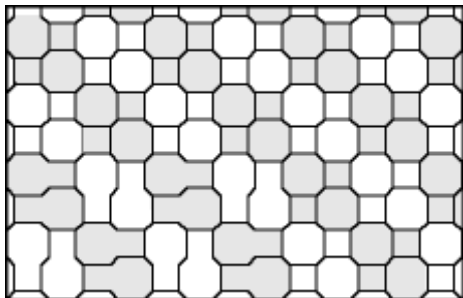

Herringbone 90°

Running Bond - One Way

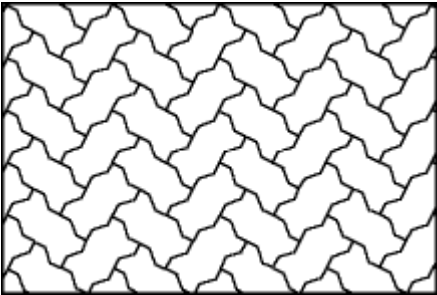

Running Bond - Two Way

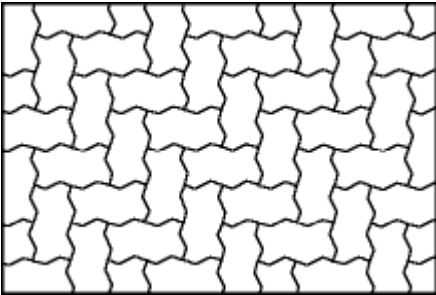

Parquet/Basketweave

UNI-STONE®

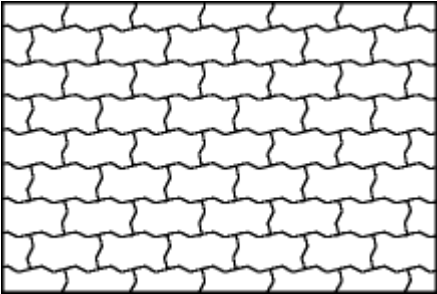

UNI-Stone® can be installed in several pattern designs. With this single-shape paver, the pattern is clearly defined.

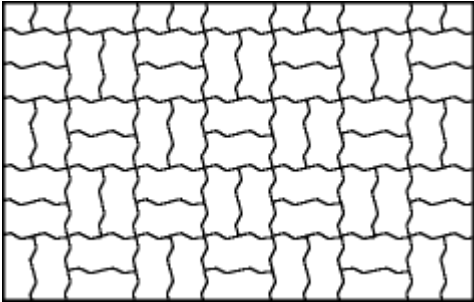

Herringbone 45°

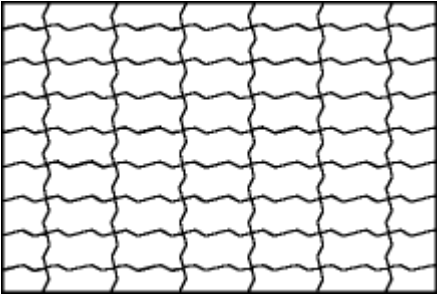

Herringbone 90°

Running Bond

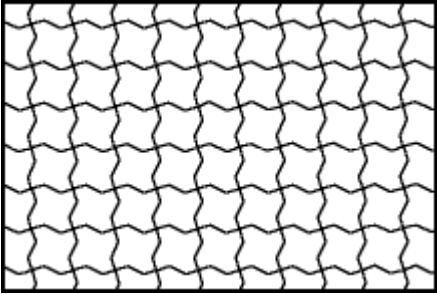

Parquet/Basketweave

Stack

UNI-ANCHORLOCK®

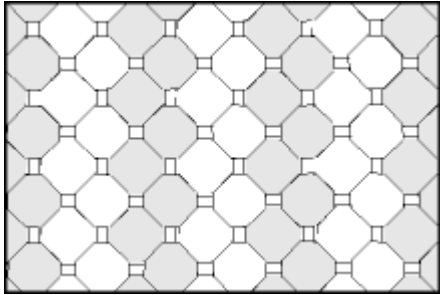

Due to UNI-Anchorlock's® geometry and differences in mold layouts, the pattern is random.

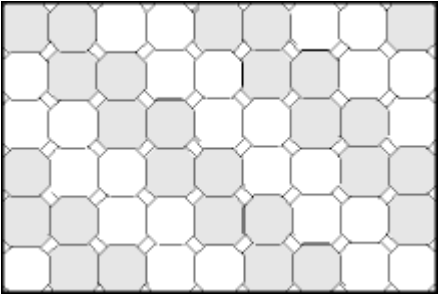

Overall Pattern

UNI ECO-STONE®

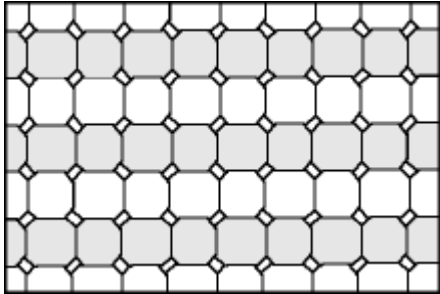

UNI Eco-Stone® can be installed in a number of patterns; however the overall appearance is somewhat similar. The shaded areas in the illustrations below show the actual pattern.

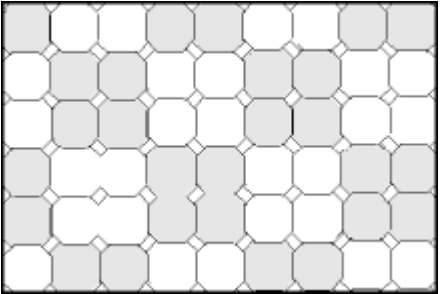

Herringbone 45°

Herringbone 90°

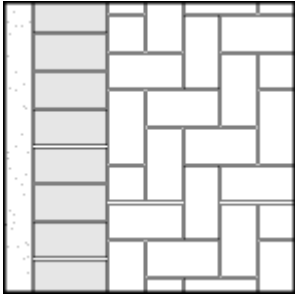

Running Bond

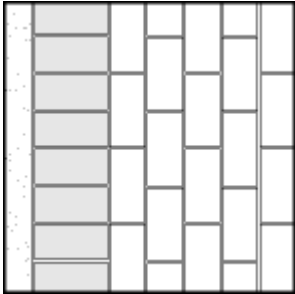

Parquet/Basket Weave

BORDER DETAILS

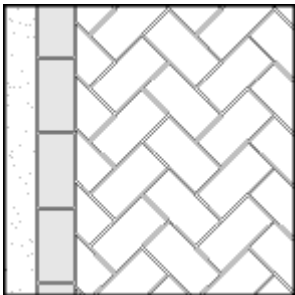

Holland-Stone™ rectangular pavers (also available at UNI® Manufacturers) are often used as soldier or sailor border courses to finish a UNI® interlocking concrete paver installation. A few details are shown below with different pattern styles.

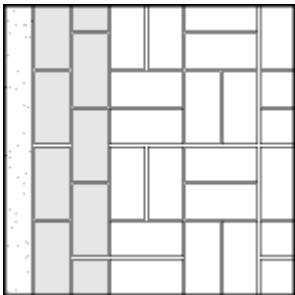

Soldier Border w/ Herringbone Pattern

Soldier Border w/Running Bond Pattern

Sailor Border w/Herringbone Pattern

Double Sailor Border w/ Parquet Pattern
